1. What inspired you to become an Ice Carving Artist?

I began carving at a young age and have been interested in all types of carving. I first seen Ice carving on a school trip to Ottawa and always wanted to try it. I got my chance in 2012 and the first time I took a chisel to Ice I fell in love. Ice is truly a gift from the heavens and a wonderful medium. Ice carving is like a musician playing a song because the ice melts and fades into a memory like the sound played from a musical instrument.

2. What are you most looking forward to experiencing at this year's International Ice Carving Competition at Boardwalk Ice on Whyte?

I'm looking forward to my first visit to Edmonton and to create a beautiful piece for the city to enjoy.

3. Name 3 other International Ice Carving Competitions around the world you have carved at and awards you might have won.

This is my first trip abroad for Ice Carving. I have been participating in Ottawa's Winterlude for the past 5 years.

- 6th solo category at Winterlude, 2017
- 3rd at Amerispa's annual Ice Carving event in Cantly, Quebec
- I have a number of awards in other mediums.

4. What tips would you give to someone interested in becoming an Ice Carver?

Like any other carving you need sharp tools to ice carve; taking good care of your tools is worth it in the end.
